

Unique Pediatric Intensivist Opportunity....

Seeking a second BC/BE Pediatric Intensivist for the Pediatric Hospitalist Medicine at Community Medical Center in Missoula, Montana. Responsibilities include coverage for 13 Pediatric beds, including up to 6 PICU beds, as well as sedation for outpatient procedures and ED consultation. Community Medical Center is affiliated with Seattle Children's Hospital, and there are teaching opportunities with medical students as University of Washington faculty, and Western Montana Family Medicine residents (to start fall 2013).

Community Medical Center is located in Missoula, nestled in the Rocky Mountains of western Montana, between Glacier and Yellowstone National Parks. The medical staff includes 300 physicians, and the hospital has 146 acute care beds. It is focused on women and children's health, has the only pediatric intensive care unit in western Montana, pediatric surgeon in Montana, among other pediatric specialists, as well as a level III NICU staffed by neonatologists.

Missoula is home to the University of Montana, and is a family oriented community, with excellent schools and a multitude of youth sports and activities. There is a four season climate, with abundant outdoor activities within minutes of leaving the hospital. The Missoula Children's Theater, monthly Art Walks, Missoula Symphony, farmers markets, and many local festivals round out a truly progressive city. We offer competitive salary and benefits.
